## PROFILE

Senior Software Architect with 20+ years of experience in developing secure, scalable systems and leading technical teams. Expert in cybersecurity and cloud architecture, with a proven track record of delivering innovative solutions in global environments.

## WORK EXPERIENCE

**Analphabet (Zurich)**

2009 - 2023

Senior Software Developer → Team Lead  
→ Senior Software Architect

- **2009 - 2012:** Worked as a **Senior Developer** on **Google's** core systems, contributing to **high-performance** data centers and optimizing distributed **computing algorithms**.
- **2013 - 2017:** Promoted to **Team Lead**, overseeing a team of developers working on **Google Cloud Platform's** security features.
- **2018 - 2023:** Advanced to **Senior Software Architect**, designing **scalable** and **secure** backend solutions for global data processing services.

**Inspector Gadget's Lab**

2002 - 2008

Software Developer

- Contributed to the **development** of antivirus engines and early malware **detection systems**.
- **Wrote efficient** code in **C++** for core components of the software, focusing on **performance optimization**.
- Participated in **research** on emerging **threats**, **integrating findings** into the product's threat database.
- **Collaborated** with cross-functional teams to implement new features and ensure timely **product releases**.

## EDUCATION

**Master's and PhD in Computer Science**

PhD 2005 - 2009

Counter-Strike State University (CSSU) **Master's Degree** 2003 - 2005

**Bachelor's Degree in Computer Science and Software Engineering**

1998 - 2002

Moscow Vodka University (MVU)

**Diploma in Computer Science**

1995 - 1998

Moscow Push A Long B (MPALB)
